

RITE-ADAPT™

FIELD-ADJUSTABLE TRANSITION SYSTEM

Standard Panels. Site Adaptability. Seamless Transitions.

ENGINEERED CORNER SOLUTIONS

Inner and outer curved profiles

CONCEALED MOUNTING

Angled fixing teeth into vertical slots

SITE ADAPTABILITY

Accommodates dimensional variations

SEAMLESS ARCHITECTURAL FINISH

Continuity with standard panels

RITE-ADAPT™

RITE-ADAPT™ is a field-adjustable transition system designed to create clean, seamless inner and outer corners for wall panel installations. It ensures architectural continuity, accommodates on-site dimensional variations, and integrates flawlessly with standard panels.
